

# **USB Wall Charger, QC3.0, 1-Port, 18W**

19.99.1092

## **User Manual**

## **DEAR CUSTOMER**

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before connecting, operating or using this product. Please keep this manual for future reference.

### **1.0 INTRODUCTION**

This product is a high-performance quick travel charger. It is equipped with one USB port - compliant with Qualcomm® Quick Charger™ 3.0 technology- for output. Plug the product into an AC socket, then you can charge your device (MP3, mobile phones, etc.) via the USB port.

### **2.0 FEATURES**

- Allows 100V-240V AC 50Hz~60Hz of input voltage.
- Intelligent integrated circuit equipped measures output and automatically adjusts power outputs of 3.6~6.0V/3A, 6.0~9V/2A, and 9~12V/1.5A for charging fast and safety.
- Compliant with Quick Charger 3.0, charging speed is four times faster than normal charger.
- The product id backwards compatible Quick Charger 2.0, and the default output is 5V/3A.
- Over current protection with auto-recovery.
- Short circuit protection with auto-recovery.
- Over temperature protection with auto-recovery.
- Has strong anti-interference ability and a stable performance.
- It is light, smart and convenient to use.

### 3.0 SPECIFICATIONS

<b>Input/Output</b>	
Input	100-240V AC 50/60Hz
Input Pin	European Standard
Output	3.6~6.0V/3A, 6.0~9V/2A, 9~12V/1.5A
Output Port	USB-A Port
<b>Protection</b>	
Output Over Current Protection	Yes
Over Load Protection	Yes
Over Temperature Protection	Yes
Short Circuit Protection	Yes
<b>Performance</b>	
Ripple And Noise	≤200mV
Efficiency	≥81.4%
<b>Mechanical</b>	
Size(L*H*W)	45*23*35 mm
Color	Black

**Note:**

1. This charger is compliant with Qualcomm Quick Charge 3.0, charging speed is four times faster than normal charger.
2. This charger backwards compatible Quick Charger 2.0, and the default output is 5V/3A.

### 4.0 PACKAGE CONTENTS

Before attempting to use this unit, please check the packaging and make sure the following items are contained in the shipping carton:

- Main unit ×1
- User Manual ×1

## **5.0 OPERATION**

### **Operation Procedures**

1. Plug the travel charger into a socket and the LED light will turn blue.
2. Plug one USB connector of the cable into the interface of the charger and plug the other connector of the cable into the electronic device (mobile phone, MP3, tablet, PC, etc.).
3. Please unplug the travel charger after the electronic device is fully charged.

### **Operation Notes**

1. For optimum performance, please use the travel charger according to the user manual.
2. Please plug the travel charger into a socket which voltage range should be 100~240VAC.
3. Please unplug the travel charger after using.
4. Do not use the travel charger with an electronic product which is not in conformity with the specifications, to avoid any problem caused by specification mismatching.
5. It is normal that the travel charger will get a little bit warm in the use process.
6. When the travel charger stops working under over-current, over-temperature or short-circuit protection, please unplug the device after it automatically returns to work, the you need to check whether the device is compatible with this charger.
7. Do not let the travel charger close to fire, such as stove, candles, etc.
8. Do not let the travel charger soak into liquid, such as swimming pool, bathtub, etc.
9. Do not wash the travel charger with a corrosive cleaner.
10. If the travel charger does not work properly, please contact your vendor.
