

Item no.: 19.99.5079

VALUE Non-Contact AC Voltage Tester, with flashlight, black

Features:

- AC voltage range: about 12 ~1000V (button S indicator is on) ; about 48~1000 V (button S indicator is off)
- Supports white LED floodlight flashlight
- Supports automatic shut down
- Selects 3 sensitivities automatically (high , medium and low)
- 2x 1.5V AAA battery operated

- ① Probe (NCV inductive head)
- ② Flashlight
- ③ Induced voltage signal indicator
- ④ Signal intensity indicator - High (red light lighted up), Medium (green light lighted up), and Low (flashing green light)
- ⑤ Power on/off button, with power indicator
- ⑥ Flashlight on/off button
- ⑦ AC voltage detection range switching button (S) with detecting range indicator
- ⑧ Battery cover
